Best MBA Colleges in India

In the present era, Masters of Business Administration (MBA) is one of the most sought after post graduation courses. Students come from all across the country to seek admission in the deemed colleges offering the MBA program. There are numerous MBA colleges in India that provide extensive training to their students and help them develop specific skills requisite to climb the ladder of success. They introduce the various aspects of business to them including marketing, operations and human resource management.

There is a multitude of [Management Colleges in India](#) out of which one of the most well known names is that of Hindustan Institute of Management and Computer Studies (HIMCS) run by Sharda Group of Institutions (SGI). It is equipped with all the world class amenities and believes in being the best. Mediocrity is not acceptable to SGI group. It strives hard to inculcate the managerial abilities in each of its students. SGI group consists of several prestigious colleges such as Hindustan institute of management and computer studies, Mathura, Hindustan institute of technology, Hindustan Institute of Dental Sciences and Anand engineering college.

SGI group is widely acclaimed for its MBA program and this has brought lot of praise to the Hindustan Institute of Management and Computer Studies (HIMCS). It is one of the best management colleges in India. It offers varied MBA courses differing in their tenure and value. To list a few, we have the full time MBA programs for finance, marketing, Human Resource (HR) and Information technology (IT) streams.

HIMCS is approved by AICTE, Ministry of HRD, Government of India, and is affiliated to U.P Technical University, Lucknow. Since its inception in the year 1997, it has been increasingly drawing students year after year. The pass outs of this MBA College are today holding high positions in reputed organizations. Students from any discipline can apply for the MBA course.

SGI group grants permission for direct admission which is done in accordance with the government norms. The eligibility criteria for seeking admission in the MBA program is that the applicant must have atleast 50% marks in graduation or should be a rank holder in the merit list of the CAT/MAT exam.

The MBA course has various streams to exercise choice from. It ranges from accounting and marketing to operations, finance and human resource management. There is a wide gamut of streams and each student is expected to select a particular stream in which he/she would like to specialize. The best part about the SGI group is that it also provides placement assistance through its devoted placement cell to its students.

AICTE Approved Management Colleges Providing Full Time MBA Courses in India

Are you at the threshold of your career where you are confused whether to go for a management course or not? If yes, then you need not to worry as this is a genuine concern of every graduate today.

These days the market trend shows that getting a management degree has become the talk of the town. It has become a vital qualification for people looking for good career entries in the corporate world. A management degree has become the most sought-after education in India. You can say that in the present days business schools are selling management degrees like hot cakes.

The subject of management teaches about the ways to control and coordinate with various departments in an organization. The management personnel are required to administer the resources available in the company so as to increase the efficiency and output of the organization. There are various branches or subjects that are being offered to the students for getting specialization in MBA. The subjects in Management Colleges in India range from Business Management, Industrial Administration to Computer Management, Rural and Personnel Management. After doing MBA, you can be a Personnel Manager or Finance Manager, Marketing or Operations Managers.

Today, you will find there are various colleges that offer MBA degrees but what makes the difference is the AICTE approval. All India Council for Technical Education is a national level government body that gives approval and certification to any of the [MBA Institute in India](#) after surveying their standards and quality of the technical education. Hence, the students should try for colleges that are UPTU Recognised Colleges.

These days getting admission for MBA has become a tough nut to crack. Selection to MBA colleges is being done on the evaluation of the student's performance in the common entrance test, group discussion and finally personal interview. The topmost business schools of India known as IIMs conduct entrance through their Common Admission Test also known as CAT. It is through clearing this test that the student can get admission to this prestigious institution. Another prominent MBA test known as MAT (Management Admission Test) is the one conducted for admission in management colleges in India. Through this test, the students can avail admission to various AICTE Approved Colleges offering MBA course. There are various skills on which the students are scrutinized, such as English usage, aptitude and logical reasoning.
